Profile

Hey. It's Bora.

Looking forward to improve my capabilities in Golang and Devops. Have some knowledge about GNU/Linux. Experienced in Ruby/Rails to develop websites and mobile apps.

Senior year at Pamukkale University with Computer Engineering major.

Experience

Web Developer Lab2023

Nov 2018 – Sep 2019 Denizli, Turkey
I started as an intern in this company. After 3 months I was promoted to Web Developer as part-time role.

Lab2023 is a company that makes web sites and mobile apps. In this company Rails ecosystem is used. Like;

- Ruby on Rails
- Stimulus JS
- Turbolinks

Company website: <https://lab2023.com>

Volunteering

Philosophy and basic usage of GNU/Linux

Guest Lecturer at Izmir Fen Lisesi
The goal of the class was to inspire young students about GNU/Linux.

Ruby/Rails

Assistant Lecturer at Özgür Yazılım Yaz Kampı
A camp aims to improve free software. There is a lot of courses. I was in Ruby/Rails class as assistant lecturer.

DNS and SMTP structures

Lecturer at Pamukkale University
I talked about 2 topics.

- What is DNS and how it works.
- What is SMTP and how to configure Postfix service.

Rails Girls

Assistant Lecturer
An event organized to help women step into the world of informatics.

Languages

Turkish Native

English Intermediate

Skills

GNU/Linux System Administration

Git

Go

Shell scripting
